Juneteenth! A new Federal Holiday!

Juneteenth recognized as a holiday

Dear Colleagues,

We are pleased to learn of the federal and State of Illinois governments' actions to recognize Juneteenth as a holiday commemorating the end of slavery in the United States. Our decision this year to support senior leaders in exercising their choice to take a personal day of leave to reflect on Juneteenth is aligned with government actions. Given the timing of the actions, we were unable to integrate the new holiday into the Fermilab calendar but look forward to working with Fermilab and DOE leadership in developing the FY22 calendar.

If you haven't already, I encourage you to read [the June 10 news@work column](#) from Chief Equity, Diversity and Inclusion Officer Sandra Charles.

Regards,

Nigel
